Contents to volume 158 (1993)

Number 1 – 14 January 1993

Research reports

Large scale recovery of biologically active IgM (95% pure) from human plasma obtained by therapeutic plasmapheresis
A.H. Tatum (USA) 1

An enzyme immunoassay for the determination of taxol and taxanes in *Taxus* sp. tissues and human plasma
P.G. Grothaus, T.J.G. Raybould, G.S. Bignami, C.B. Lazo and J.B. Byrnes (USA) 5

Improved sandwich enzyme-linked immunosorbent assays for transforming growth factor β_1
D. Danielpour (USA) 17

Transplantation of $CD4^+$ T cell clones into SCID mice
A. Rudolphi and J. Reimann (Germany) 27

In vitro immunization with antigen directly blotted from SDS-polyacrylamide gels to polyvinylidene difluoride membranes
J. Guzman, G. Schoedon and N. Blau (Switzerland) 37

Optimisation of small-scale coupling of A5B7 monoclonal antibody to carboxypeptidase G_2
R.G. Melton, J.M.B. Boyle, G.T. Rogers, P. Burke, K.D. Bagshawe and R.F. Sherwood (UK) 49

The use of palmitate-conjugated protein A for coating cells with artificial receptors which facilitate intercellular interactions
S.A. Kim and J.S. Peacock (USA) 57

Background staining in immunoblot assays. Reduction of signal caused by cross-reactivity with blocking agents
W.Y. Craig, S.E. Poulin, M.F. Collins, T.B. Ledue and R.F. Ritchie (USA) 67

Investigation of human platelet alloantigens and glycoproteins using non-radioactive immunoprecipitation
J.W. Smith, C.P.M. Hayward, T.E. Warkentin, P. Horsewood and J.G. Kelton (Canada) 77

Analysis of peripheral blood mononuclear cells in rodents by three-colour flow cytometry using a small-volume lysed whole blood technique
M. Peakman, J.M. Tredger, E.T. Davies, M. Davenport, J.B. Dunne, R. Williams and D. Vergani (UK) 87

Two-colour combination enzyme-linked immunosorbent assay for the simultaneous detection of HBV and HIV infection
T. Porstmann, E. Nugel, P. Henklein, H. Döpel, W. Rönspeck, P. Pas and R. Von Baehr (Germany) 95

Epitope mapping of human immunoglobulin-specific murine monoclonal antibodies with domain-switched, deleted and point-mutated chimeric antibodies
R.G. Hamilton and S.L. Morrison (USA) 107

Expression polymerase chain reaction for the in vitro synthesis and epitope mapping of autoantigen. Application to the human thyrotropin receptor
H.B. Burch, E.V. Nagy, K.C. Kain, D.E. Lanar, F.E. Carr, L. Wartofsky and K.D. Burman (USA) 123

Polymerase chain reaction in situ: intracellular amplification and detection of HIV-1 proviral DNA and other specific genes
O. Bagasra, T. Seshamma and R.J. Pomerantz (USA) 131

Letter to the editors

Responsiveness of the interleukin (IL)-6-dependent cell line B9 to IL-11
R. Burger and M. Gramatzki (Germany) 147

Notes to authors 149

Number 1 – 3 February 1993

Research reports

Pitfalls in the use of ELISA to screen for monoclonal antibodies raised against small peptides
S.C. Smith, N. McIntosh and K. James (UK) 151

A method to quantify binding of unlabeled peptides to class I MHC molecules and detect their allele specificity
J. Elvin, C. Potter, T. Elliott, V. Cerundolo and A. Townsend (UK) 161

Rapid induction of anti-idiotypic responses to unmodified monoclonal antibodies from syngeneic mice following primary immunization
J.-C. Grivel, P. Ferrier, N. Renard, G. Jolly, T. Jarry and L. Leserman (France) 173
Avidin attachment to red blood cells via a phoshpolipid derivative of biotin provides complement-resistant immunoerythrocytes
V.R. Muzykantov, M.D. Smirnov and A.L. Klibanov (Russian Federation) 183
An immunoenzyme technique for the identification of granulocyte-macrophage colony-stimulating factor (GM-CSF) receptors using digoxigenated-GM-CSF
F. Roncaroli, M. Geuna, G. Reato, R. Ponti, F. Sanavio, G. Bellone and G. Palestro (Italy) 191
A rapid and sensitive immunoassay for antibodies against alloantigens on human platelet glycoproteins (BIPA)
C. Löliger, E. Rühlmann and P. Kühnl (Germany) 197
Elimination of extracellular bacteria by antibiotics in quantitative assays of bacterial ingestion and killing by phagocytes
S.N. Tabrizi and R.M. Robins-Browne (Australia) 201
Flow cytometric analysis of surface major histocompatibility complex class II expression on human epithelial cells prepared from small intestinal biopsies
L. Madrigal, S. Lynch, C. Feighery, D. Weir, D. Kelleher and C. O'Farrelly (Ireland) 207
Characterisation of residues in antibody binding sites by chemical modification of surface-adsorbed protein combined with enzyme immunoassay
B.-M.E. Gudmundsson, N.M. Young and R.P. Oomen (Canada) 215
Quantitative analysis of lymphokine mRNA expression by a nonradioactive method using PCR and anion exchange chromatography
H. Gaus, G.B. Lipford, H. Wagner and K. Heeg (Germany) 229
The effect of biotinylation on the antigenic specificity of anti-defensin monoclonal antibodies
A.V. Panyutich, E.A. Baturevich, T.S. Kolesnikova and T. Ganz (USA, Belarus) 237
In vitro gene expression for the localization of antigenic determinants: application to the *E. coli* tryptophan synthase β_2 subunit
B. Friguet, A.N. Fedorov and L. Djavadi-Ohaniance (France, Russian Federation) 243
Rapid determination of hepatitis B surface antigen (HBsAg) by latex agglutination using an integrating sphere turbidimetric assay
M. Yamashiki, A. Nishimura, H. Kishioka, K. Takase and Y. Kosaka (Japan) 251
Detection of lymphocyte Fcγ receptor-blocking factors by the EA rosette inhibition assay. Refinement of the conventional method and development of a novel flow-cytometric assay
G.P. Sandilands, M.R. Greer, S.E. Chisholm, I.C. McKay, I. Downie, M.A. McMillan and R.N.M. MacSween (UK) 257
Protein A antibody-capture ELISA (PACE): an ELISA format to avoid denaturation of surface-adsorbed antigens
P.K.M. Ngai, F. Ackermann, H. Wendt, R. Savoca and H.R. Bosshard (Switzerland) 267

Short communication
One-step enrichment of nucleated red blood cells. A potential application in perinatal diagnosis
N.M. Bhat, M.M. Bieber and N.N.H. Teng (USA) 277
